

All items shown, except R.752 Turbo Car, are supplied with a squad of Battle Space Commandos.

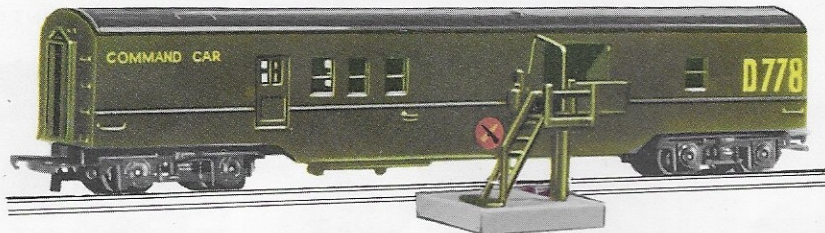

STRIKE SET

RS.16 "STRIKE FORCE 10" SET. Mobile Air and Ground Combat Train. Catapult Plane Launch Car and Assault Tank Transporter hauled by SynchronSmoke Locomotive.

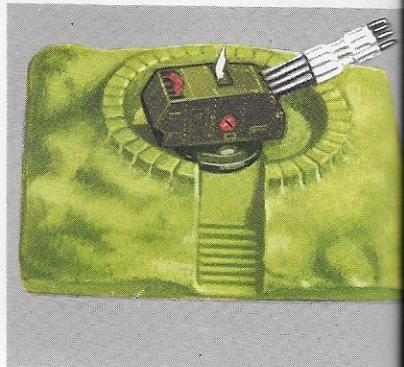

SATELLITE

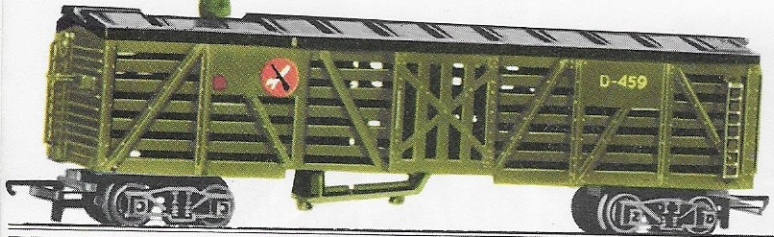

RS.17 "SATELLITE" SET. Complete train with Spy Satellite Launcher and Radar Tracking Command Car hauled by Diesel Locomotive.

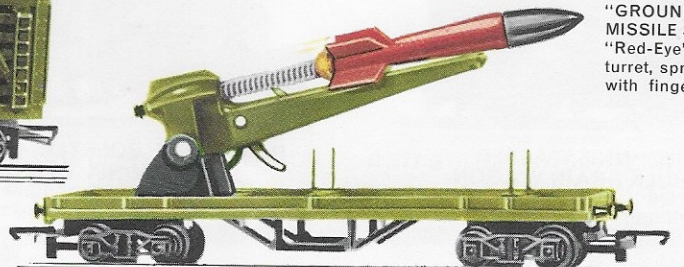

R.725 COMMAND CAR. Battle group headquarters for Staff officers. Picks up and delivers despatches, maps, rations and ammunition whilst on the move. Complete with pick up and delivery points.

R.671 MULTIPLE "GROUND-TO-AIR" MISSILE SITE. "Red-Eye" rockets in rotating turret, spring loaded launcher with fingertip control.

R.639 SNIPER CAR. Innocent-looking supply wagon houses hidden sniper who springs up to fire.

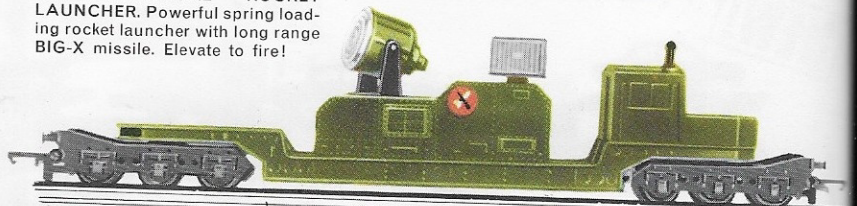

R.216 TACTICAL ROCKET LAUNCHER. Powerful spring loading rocket launcher with long range BIG-X missile. Elevate to fire!

R.128 BATTLE RESCUE HELICOPTER CAR.

As rail car passes trackside trigger, pre-wound launch mechanism launches BR-1 Helicopter on rescue mission. It really flies!

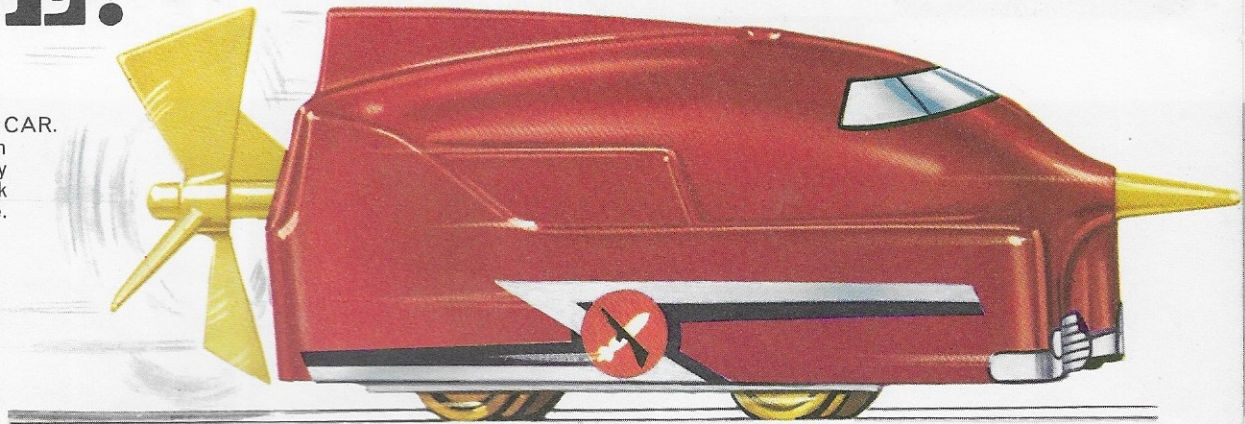

R.341 ANTI-AIRCRAFT SEARCHLIGHT WAGON. Powerful searchlight picks up electric current from track. Use beam to light up bombers or battlefield at night!

SPACE!

R.752 BATTLE SPACE TURBO CAR.

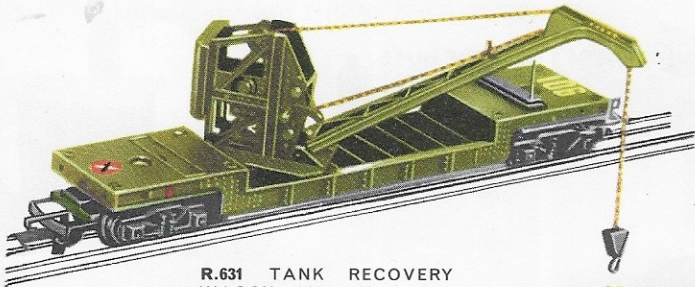

Variable speed propeller driven armoured space car with heavy duty ramming spike for attack missions! Great fun to operate.

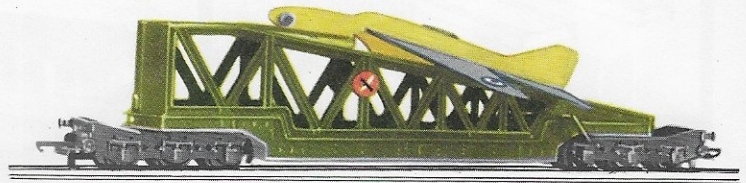

R.571 G-10 "Q" CAR. Plain freight wagon that houses two "Red-Eye" rocket launchers. Wagon sides fall away and launcher swings into firing position on touching trackside trigger.

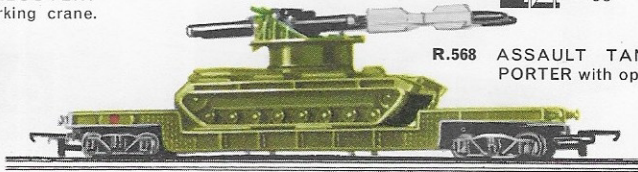

R.249 EXPLODING CAR. When hit by Battle Space rocket missile, car explodes realistically! Easily re-assembled for further attacks.

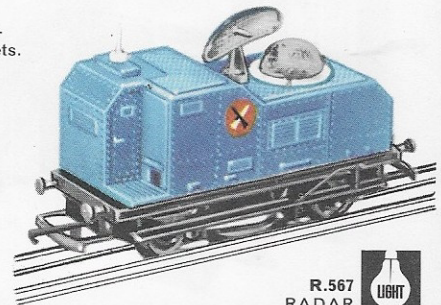

R.631 TANK RECOVERY WAGON with working crane.

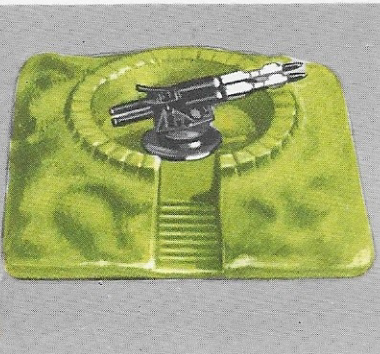

R.562 CATAPULT PLANE LAUNCH CAR. Close support fighter plane flies over 15 ft. when launched by trackside trigger.

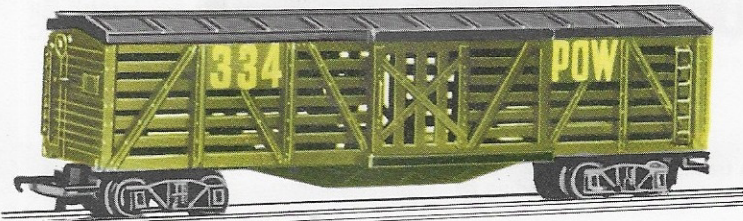

R.568 ASSAULT TANK TRANSPORTER with operating rockets.

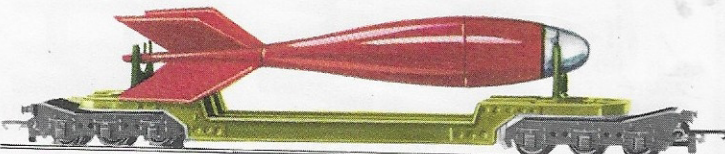

R.567 RADAR TRACKING COMMAND CAR. Radar scanner revolves to track enemy aircraft or satellites and dome emits "electronic" flashes.

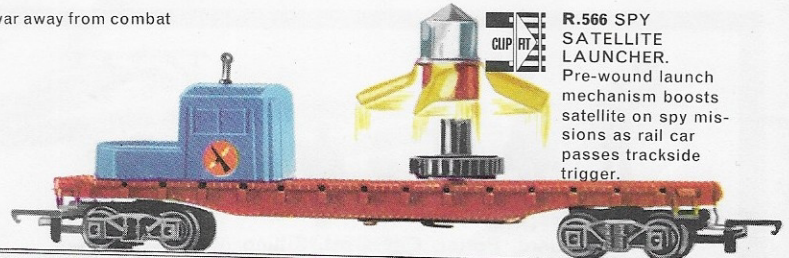

R.670 TWIN "GROUND-TO-AIR" MISSILE SITE. Rotating elevating launchers in camouflaged fortified emplacement.

R.630 P.O.W. CAR. Transports prisoners of war away from combat zone. Will also carry freight and ammunition.

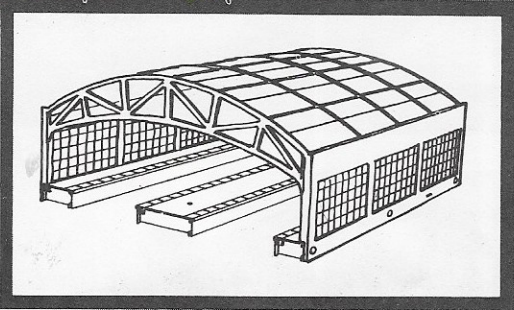

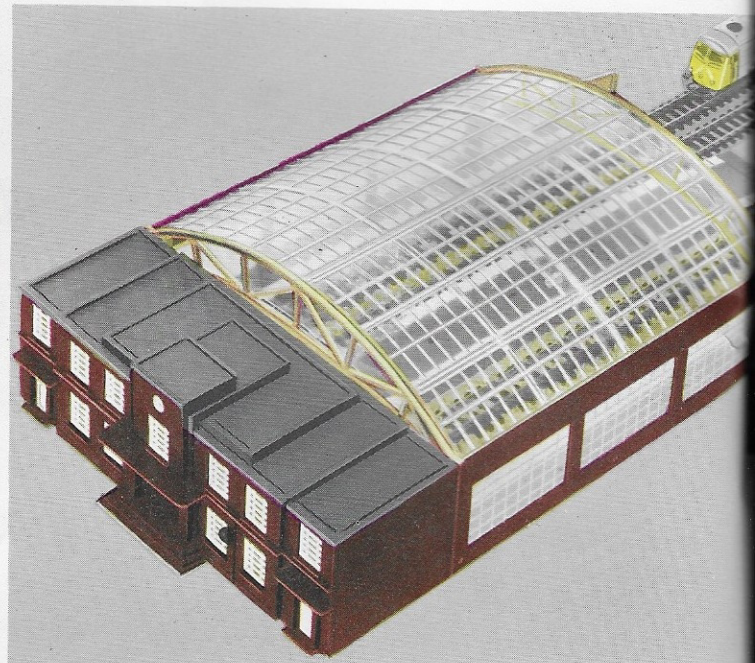

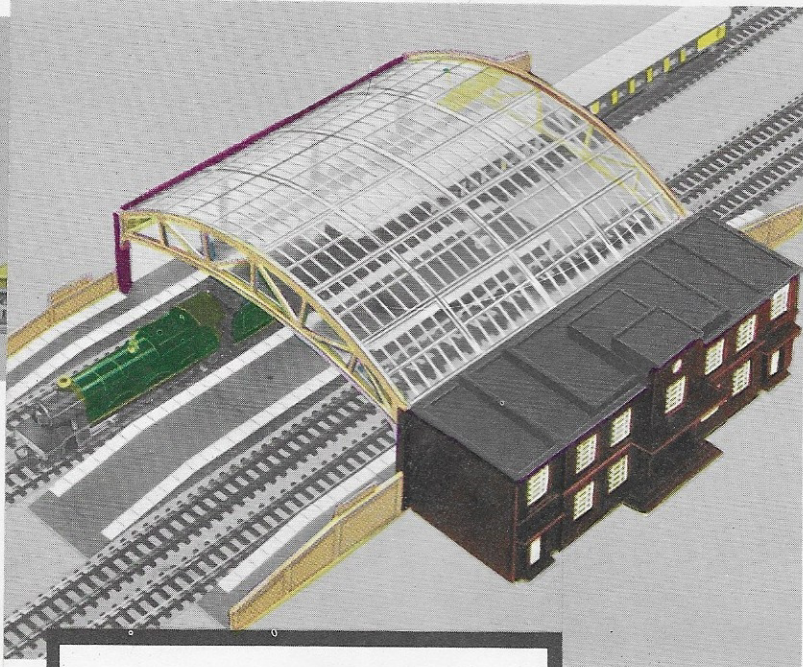

R.239 "RED ARROW" BOMB TRANSPORTER. Massive block buster bomb has cap loading warhead that detonates on hitting hard surface!

R.566 SPY SATELLITE LAUNCHER. Pre-wound launch mechanism boosts satellite on spy missions as rail car passes trackside trigger.

Station Buildings

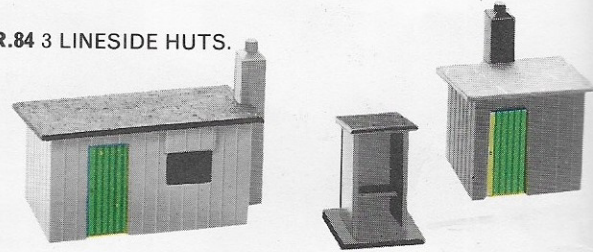

R.5083 TERMINUS AND THROUGH STATION ASSEMBLY PACK. Either of these two magnificent stations can be constructed simply and quickly from this kit, the parts screw together for rigidity.

R.5084A TERMINUS AND THROUGH STATION EXTENSION PACK (inset) contains sufficient parts to add an extra covered platform bay to the station.

R.145 BRICK SIGNAL BOX complete with Interior detail.

R.84 3 LINESIDE HUTS.

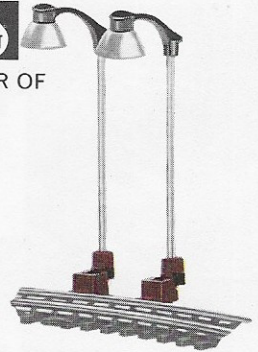

R.71 FOOTBRIDGE. Spans double track.

R.582 TICKET OFFICE PLATFORM PACK including selection of platform accessories.

R.266 PAIR OF STATION LAMPS.
12/16 volt
A.C./D.C.

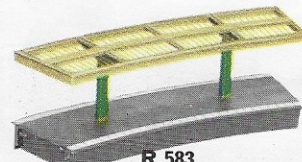

R.283 5 PLATFORM FIGURES. Guard, Porter, City Gent, Sitting Man, Sitting Woman.

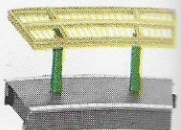

R.479 LOADING GAUGE.

R.88 WATER CRANE.

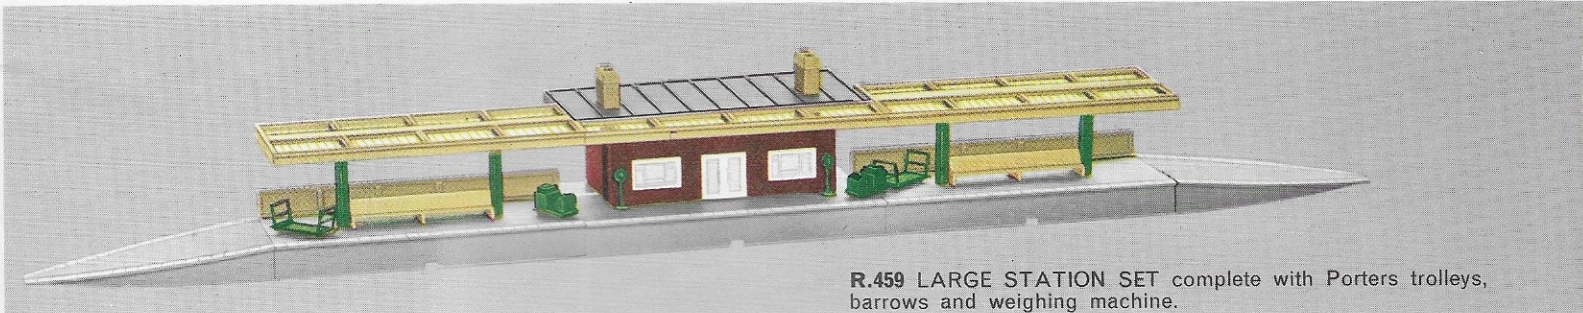

R.583 LARGE RADIUS CURVED PLATFORM WITH CANOPY.

R.584 SMALL RADIUS CURVED PLATFORM WITH CANOPY.

Stations and railway buildings add more fun and realism to your layout. By using the exclusive Tri-ang Hornby curved platforms you can build your stations on the "waste land" at the

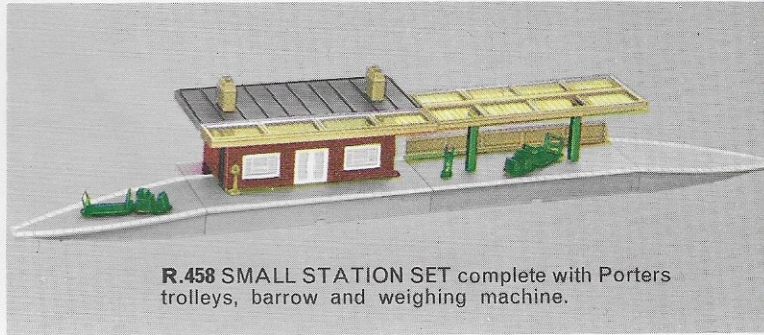

corners of the table and then gradually build up larger stations by adding further sections. Many ideas for stations and layouts are shown in the Tri-ang Hornby Track Plans Book.

R.459 LARGE STATION SET complete with Porters trolleys, barrows and weighing machine.

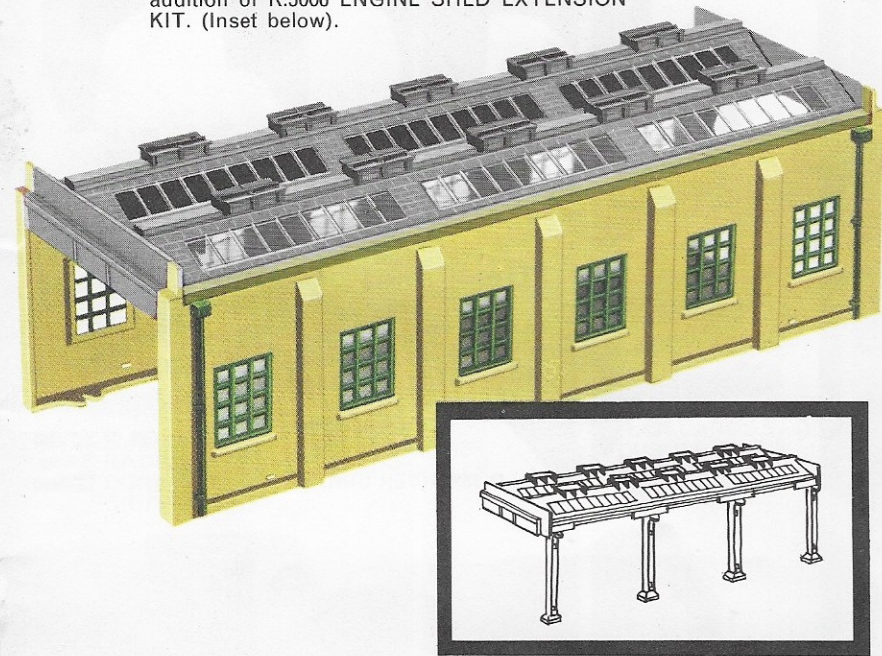

R.588 ISLAND PLATFORM SET with subway entrance for passengers.

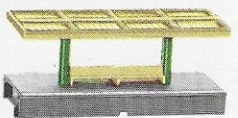

R.458 SMALL STATION SET complete with Porters trolleys, barrow and weighing machine.

R.5005 ENGINE SHED KIT. Easily assembled from individual parts, this double track engine shed can be extended to cover 4 tracks by the addition of R.5006 ENGINE SHED EXTENSION KIT. (Inset below).

R.146 MODERN BRICK ENGINE SHED. Double track.

R.585 STRAIGHT PLATFORM WITH CANOPY AND SEAT.

R.464 PLATFORM RAMP.

R.460 STRAIGHT PLATFORM.

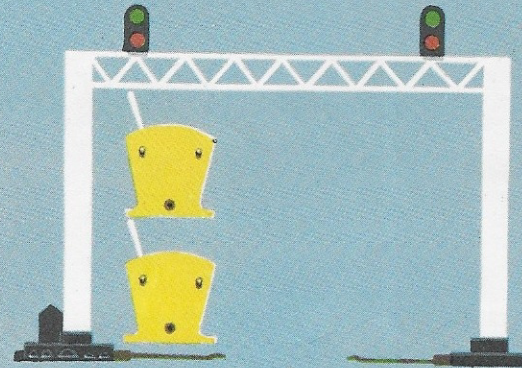

R.461 STRAIGHT PLATFORM WITH SUBWAY ENTRANCE.

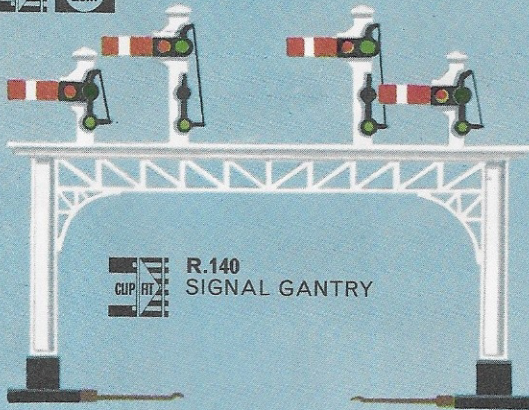

R.462 LARGE RADIUS CURVED PLATFORM.

R.463 SMALL RADIUS CURVED PLATFORM.

R.573 COLOUR LIGHTS SIGNAL GANTRY.
12/16 volts A.C./D.C.

R.140 SIGNAL GANTRY

R.142H JUNCTION SIGNAL-HOME.

R.43D DISTANT SIGNAL.

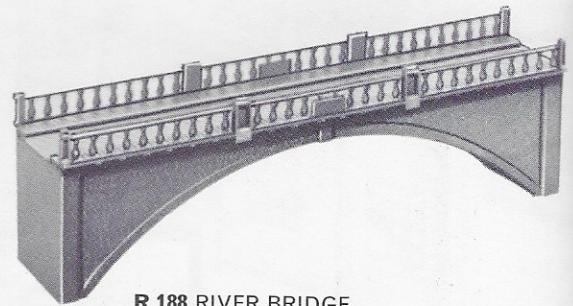

R.43H HOME SIGNAL.

R.142D JUNCTION SIGNAL-DISTANT.

R.180 VIADUCT.

R.188 RIVER BRIDGE.

R.264 GRAND VICTORIAN SUSPENSION BRIDGE.

Real Railways do not only operate on flat countryside so Tri-ang Hornby provide the modeller with the chance to cross rivers, pass under hills and have "two

level" networks. Examples of how these true to life features can be incorporated in your layout are given in the Tri-ang Hornby Track Plans Book.

R.576 SINGLE TRACK TUNNEL.

R.189 BRICK BRIDGE.

R.457 SET OF 7 INCLINED PIERS.

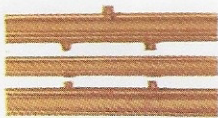

R.453 HIGH LEVEL PIER.

R.78C GIRDER BRIDGE WITH SUPPORTS.

R.430 SMALL RADIUS CURVED SIDEWALLS.

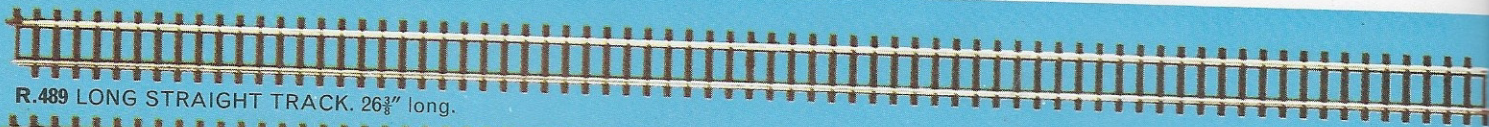

R.456 STRAIGHT SIDEWALLS.

R.431 LARGE RADIUS CURVED SIDEWALLS.

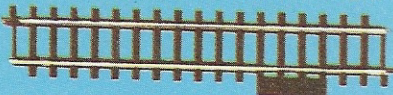

Builds up to a full length of 4' 6". Details of how to include it in a layout are given in the Tri-ang Hornby Track Plans Book.

R.489 LONG STRAIGHT TRACK. 26 $\frac{3}{8}$ " long.

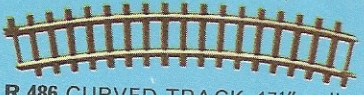

R.480 DOUBLE STRAIGHT TRACK. 13 $\frac{1}{8}$ " long.

R.497 ISOLATING TRACK. 6 $\frac{5}{8}$ " long.

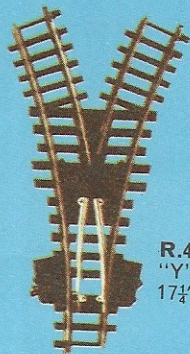

R.642 CURVED TRACK. 19 $\frac{7}{8}$ " radius.

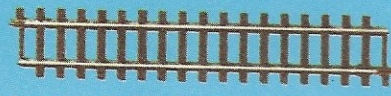

R.486 CURVED TRACK. 17 $\frac{1}{4}$ " radius.

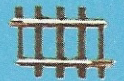

R.484 CURVED TRACK. 14 $\frac{5}{8}$ " radius.

R.437 "Y" POINT
17 $\frac{1}{4}$ " radius.

R.481 STRAIGHT TRACK. 6 $\frac{5}{8}$ " long.

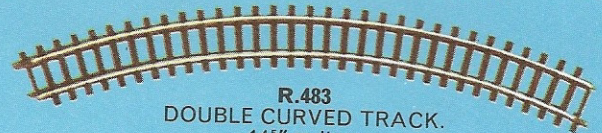

R.482 QUARTER STRAIGHT TRACK. 1 $\frac{1}{2}$ " long.

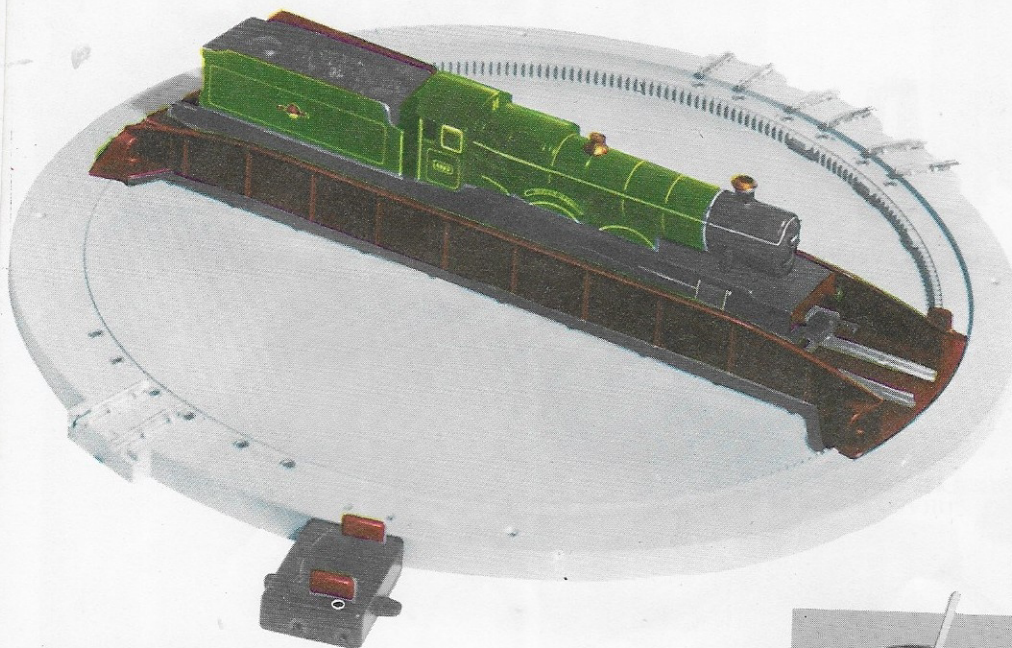

R.646 DOUBLE CURVED TRACK. 19 $\frac{7}{8}$ " radius.

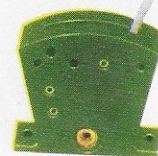

R.485 DOUBLE CURVED TRACK. 17 $\frac{1}{4}$ " radius.

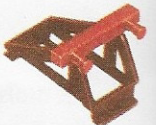

R.483 DOUBLE CURVED TRACK. 14 $\frac{5}{8}$ " radius.

R.408 ELECTRICALLY OPERATED TURNTABLE. This Turntable, which resembles those found at B.R. Terminal Stations, allows the modeller to turn his locomotives or direct them into one of three outlets. Operating from 12 volts D.C. it is supplied complete with control switch. (Locomotive not included).

R.47 LEVER FRAME SECTION. This green switch, which is complete with all leads, controls Isolating Tracks and Station Lamps.

R.494 BUFFER STOP.

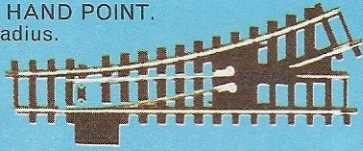

R.394 HYDRAULIC BUFFER STOP. Spring Loaded Buffers.

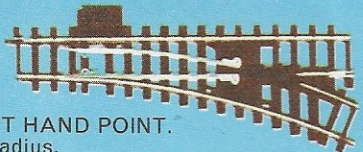

R.663 POINTS REMOTE CONTROL PACK. Consists of R.44 Lever Frame Section, X.404 Points Motor and Leads sufficient to convert one hand operated point to electrical operation. 12/16 volts D.C.

The real enjoyment of Model Railways can be appreciated better by having a good track layout. Build up your basic oval with the track and points shown on this page. A Super 4 Extra Track Pack is a good way to start. For greater realism, mount your track on the foam plastic underlay. It is supplied in long rolls for straight and curved track or formed pieces for points or crossings. Coloured grey, the plastic looks just like the gravel base of real railway lines.

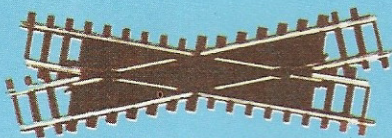

R.490
LEFT HAND POINT.
17½" radius.

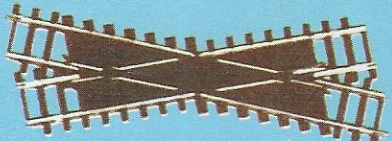

R.491
RIGHT HAND POINT.
17½" radius.

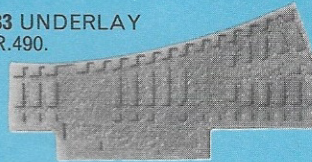

R.492 LEFT HAND DIAMOND CROSSING.

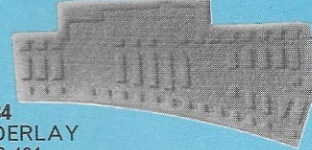

R.493 RIGHT HAND DIAMOND CROSSING.

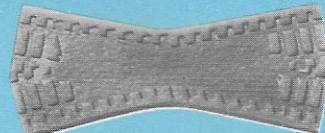

R.433 UNDERLAY
for R.490.

R.434
UNDERLAY
for R.491.

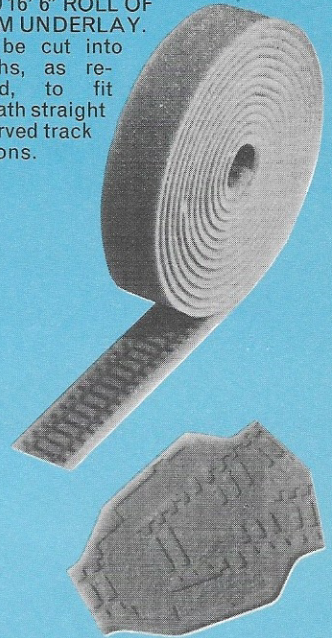

R.435 UNDERLAY for R.492.

R.436 UNDERLAY for R.493.

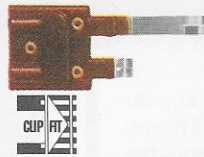

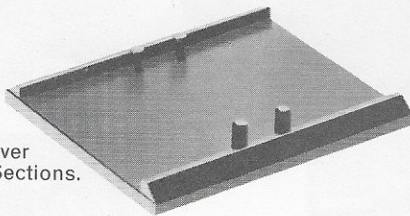

R.410 16' 6" ROLL OF
FOAM UNDERLAY.
Can be cut into
lengths, as re-
quired, to fit
beneath straight
or curved track
sections.

R.438 UNDERLAY for R.437.

R.144
BASE.
For 6 Lever
Frame Sections.

R.487
POWER
CONNECTING CLIP.

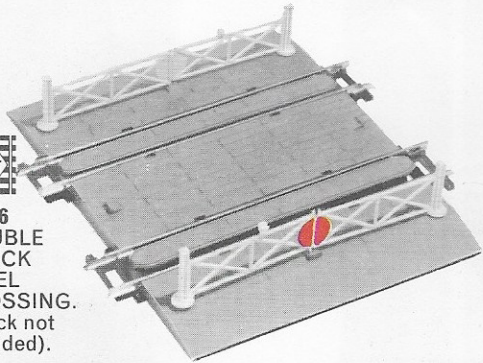

R.488
UNCOUPLING
RAMP.

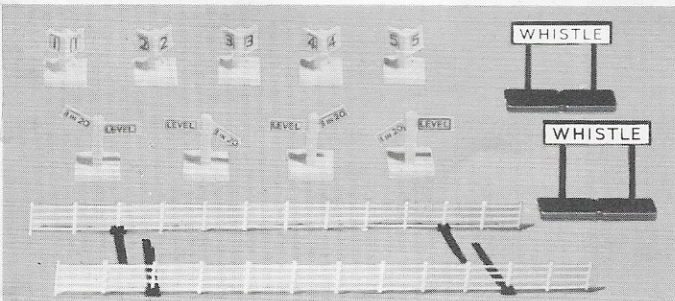

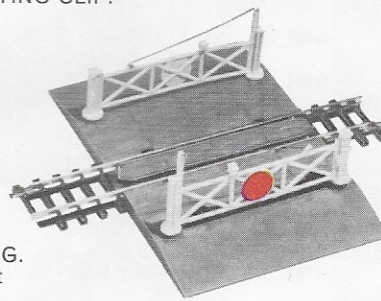

R.207
PACK OF
TRACK PINS.

R.496
DOUBLE
TRACK
LEVEL
CROSSING.
(Track not
included).

R.495
SINGLE
TRACK
LEVEL
CROSSING.
(Track not
included).

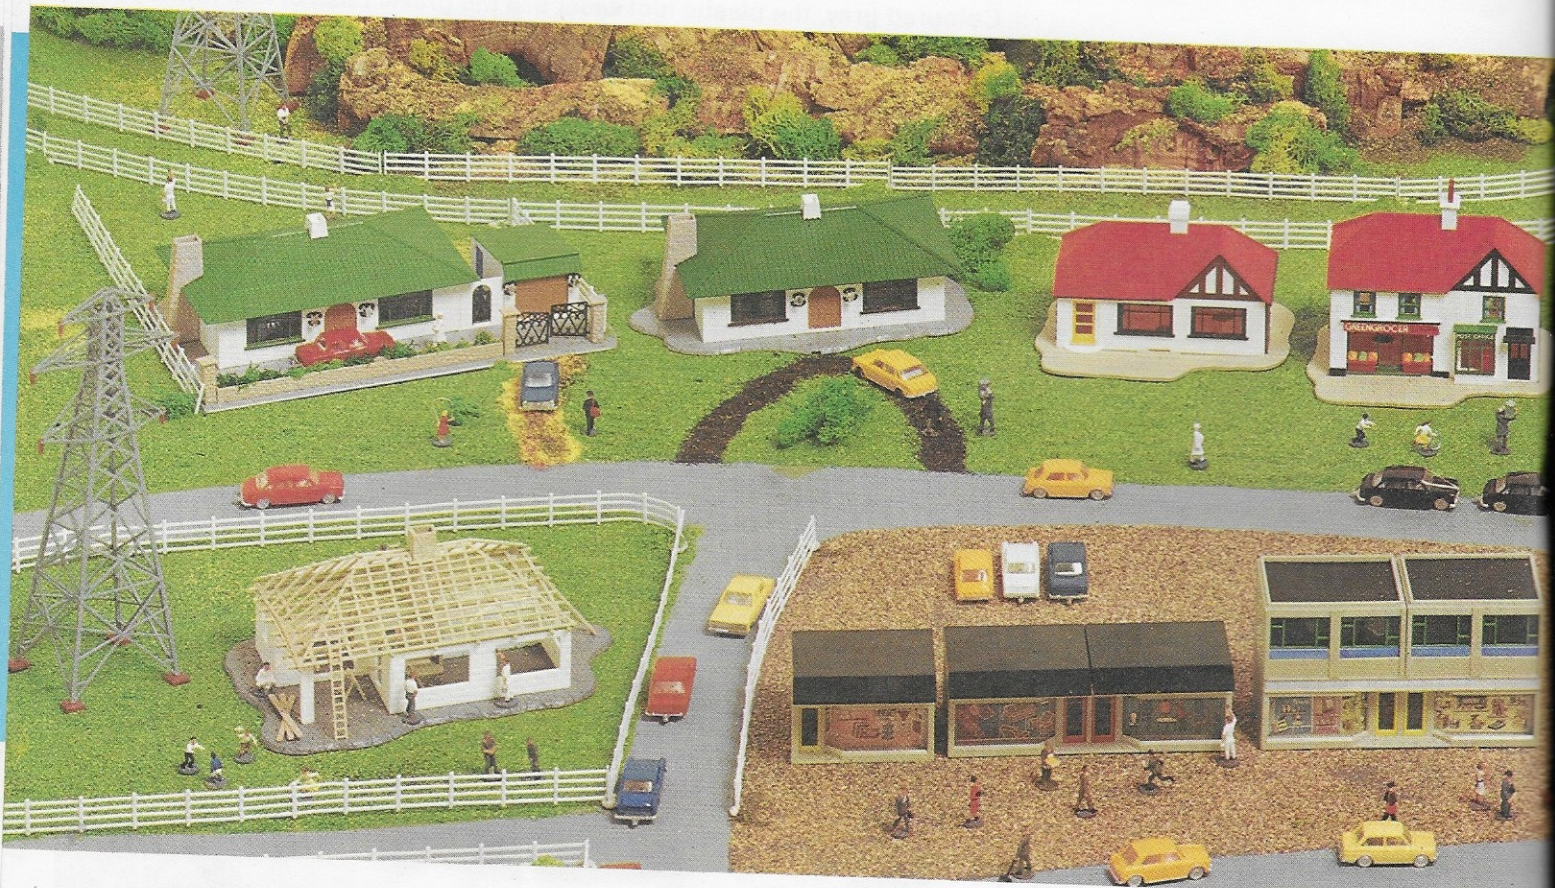

R.587 TRACKSIDE ACCESSORY PACK.
Mile posts, gradient posts, whistle signs.

R.299 TRACK-
SIDE FENCING.
2 x 12" lengths.

3 TRI-ANG HORNBLY books are available, which have been carefully written to help you get the maximum enjoyment from your layout by knowing how your locomotive and accessories function, and also by giving suggestions on constructing different exciting layouts. **R.701** BOOK OF TRAINS gives an introduction to full size railways and a history of Tri-ang Hornby Model Railways. **R.166** TRACK PLANS BOOK contains 36 pages of plans, dimensions and wiring details. **R.282** OPERATING MANUAL explains how to get the best mechanically, from your model railway.

The full range of Model-Land Building Kits are shown as they appear when assembled. In this village scene they are accompanied by Tri-ang Hornby Figures, MINIX Cars and Minic Commercial Vehicles, the landscaping having been prepared from Tri-ang Hornby Scenic Materials. The full range of building kits which are available comprise:—

- | | |
|--|---|
| RML.10 HOLLYWOOD BUNGALOW | RML.44 SMALL SHOP |
| RML.11 SAN FERNANDO BUNGALOW | RML.45 OFFICE BLOCK |
| RML.13 KENT BUNGALOW | RML.46 MEDIUM SHOP |
| RML.14 POST OFFICE | RML.60 OFFICE BLOCK |
| RML.17 VILLAGE CHURCH WITH WORKING CHIMES | RML.61 older style |
| RML.58 VILLAGE CHURCH WITHOUT CHIMES | RML.66 MEDIUM SHOP |
| RML.21 SEMI-BUILT BERMUDA BUNGALOW | RML.65 OFFICE BLOCK |
| RML.36 SMALL SHOP | RML.67 modern style |

| RML.38 MEDIUM SHOP | RML.69 FACTORY POWER HOUSE |
| | RML.70 FACTORY LOADING BAY |
| | RML.71 FACTORY TWIN PRODUCTION BAY |

RV.60 BALLAST GREY.

RV.62 SPRING GREEN.

RV.65 MOORLAND MIXTURE.

RV.67 LICHEN.

RML.73 URBAN FIGURES SET.

RML.70 PEDESTRIAN FIGURES SET.

RML.72 CHILD FIGURES SET.

RML.75 ROAD WORKMEN SET.

The comprehensive Tri-ang Hornby range of building kits has been carefully designed with the younger modeller in mind, no painting or assembly tools being required. Building sections are moulded in their correct colours which are secured by cement, detailed instructions giving step by step guidance. The finished kits present true to scale models of town and village buildings which will fit in neatly with your layout.

RV.64 EARTH BROWN.

RV.63 AUTUMN GREEN.

RV.68 CORK BARK

RML.100 POLYSTYRENE CEMENT.
1/2 oz. Tube.

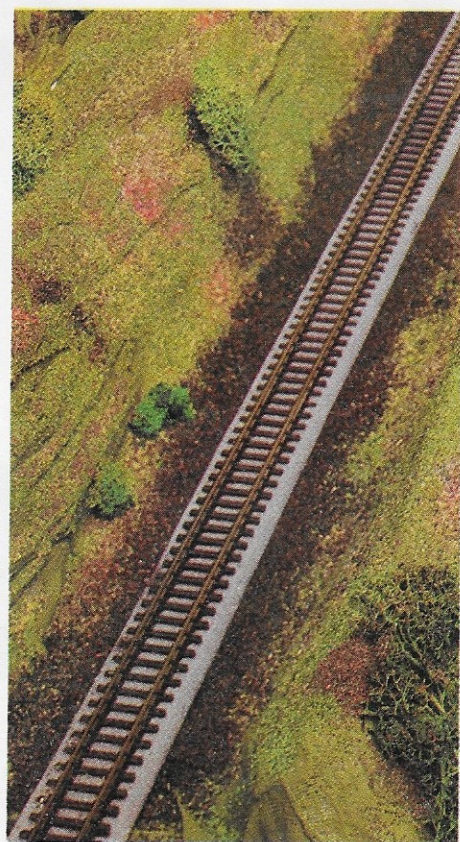

RML.22 LIGHTING UNIT. Fits into model buildings and stations. Operated from 12/16 volts. A.C./D.C.

RML.74 INDUSTRIAL WORKERS SET.

RML.71 WORKMAN FIGURES SET.

Tri-ang Hornby Scenic Materials can be used to produce realistic landscape effects in miniature. The railway cutting, treated with Scenic Materials, shows the degree of realism that can be achieved.

Tri-ang
HOBBY TRAINS

HORNBY

MINIC

Road & Rail

All the excitement of hi-speed Motorways and Electric Railways in ONE set!
Aston Martin DB6, Oval of Motorway, Loading Ramp, Car Transporter, Lay-by Junction, Diesel Shunter & Circle of Track!

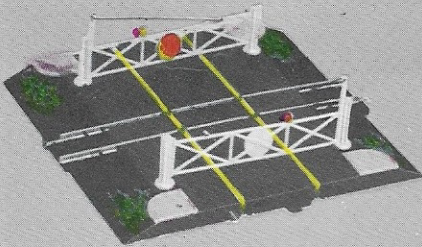

Motorail

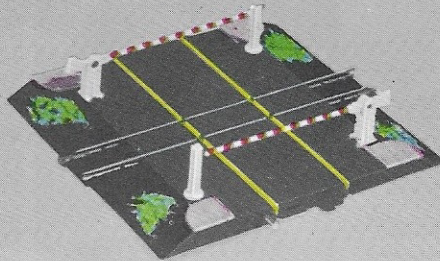

DRIVE CAR UP RAMP &
ON TO TRANSPORTER !!

MOTORAIL

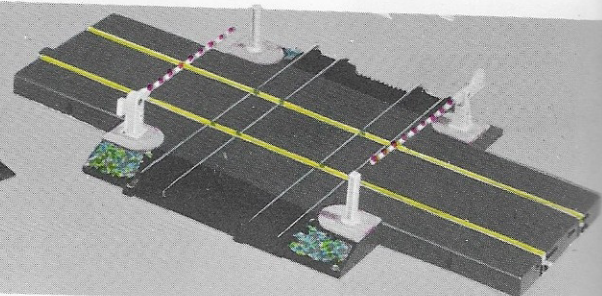

RMD MOTORAIL SET. Contains Tri-ang Hornby Locomotive, Minic Car, Hand Controller, Car Loading Ramp and Transporter Wagon, Oval of Roadway with Junction and Circle of Railway Track with Point. Requires Power Controller with 12 volts D.C. output for Train and 12 volts uncontrolled D.C. output for Car.

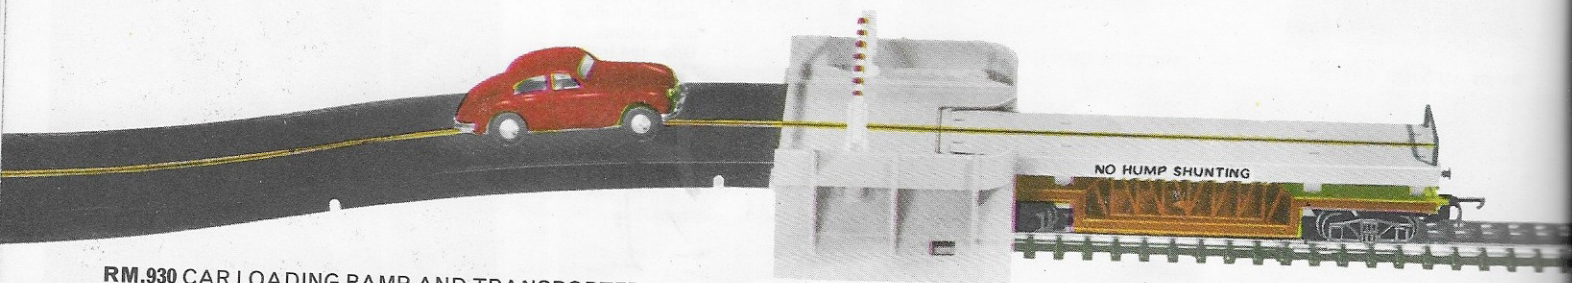

RM.926 SINGLE TRACK LEVEL CROSSING WITH GATES. Road length 6", Rail length 6 1/2".

RM.927 SINGLE TRACK LEVEL CROSSING WITH BOOMS. Road length 6", Rail length 6 1/2".

RM.928 DOUBLE TRACK LEVEL CROSSING WITH BOOMS. Road length 12", Rail length 6 1/2".

RM.930 CAR LOADING RAMP AND TRANSPORTER. Consists of Loading Ramp and Transporter Wagon. (Car not included). The Transporter Wagon is automatically electrified when shunted into the dock, allowing a car to be driven on or off.

& Motoring Sets

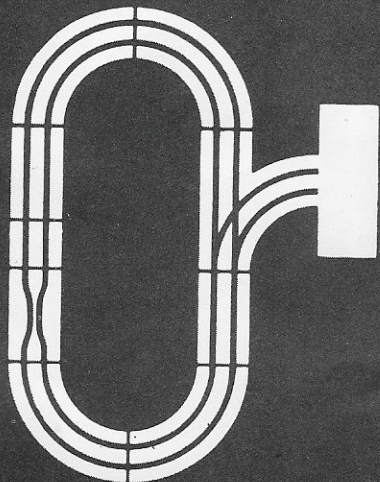

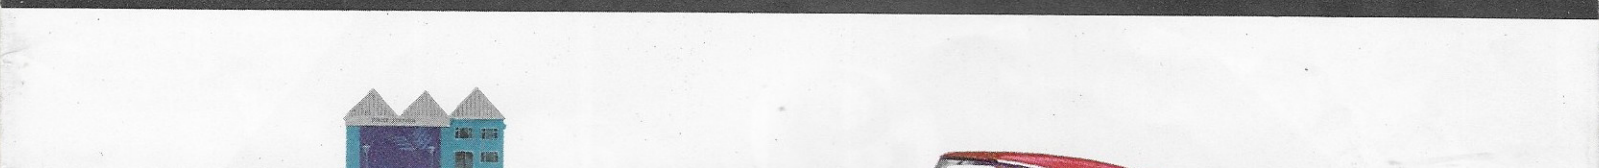

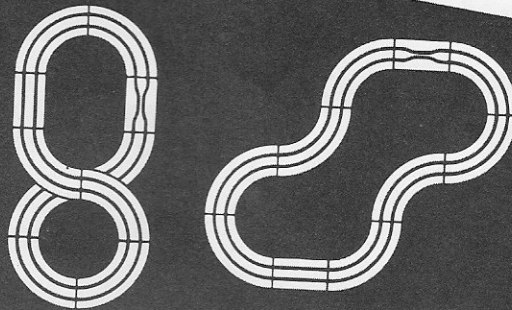

Combine all the fun of Railways and Roadways together by the use of the unique Tri-ang Hornby Minic Road Rail elements. Sharing a common Power Controller, you can integrate your two systems, driving cars onto and off railway trucks to form miniature MOTORAIL trains or cross and recross the railway track by level crossing or bridge.

Illustrations of sets show full size cars.

CHECK POINT BRAVO RALLY

M.1516 CHECK POINT BRAVO RALLY SET. Contains Mercedes and Jaguar cars, 2 Hand Controllers, 2 Track-mates, Rally Check Point with Barrier, Filling Station and 8' (270 cms.) of track, including Chicane, to make an up-and-over figure of eight circuit or alternatives. The Barrier, operated by a long-running clockwork mechanism, rises and falls presenting a continuous hazard to the cars. The object is to time your cars arrival before the barrier falls, thus gaining an advantage over your less skilful opponent.

CRIME PATROL

M.1519 CRIME PATROL SET. Contains Police Jaguar with roof light and E-type Jaguar, 2 Hand Controllers, 2 Track-mates, Police Station and nearly 7' (210 cms.) of Roadway with bottleneck and junction.

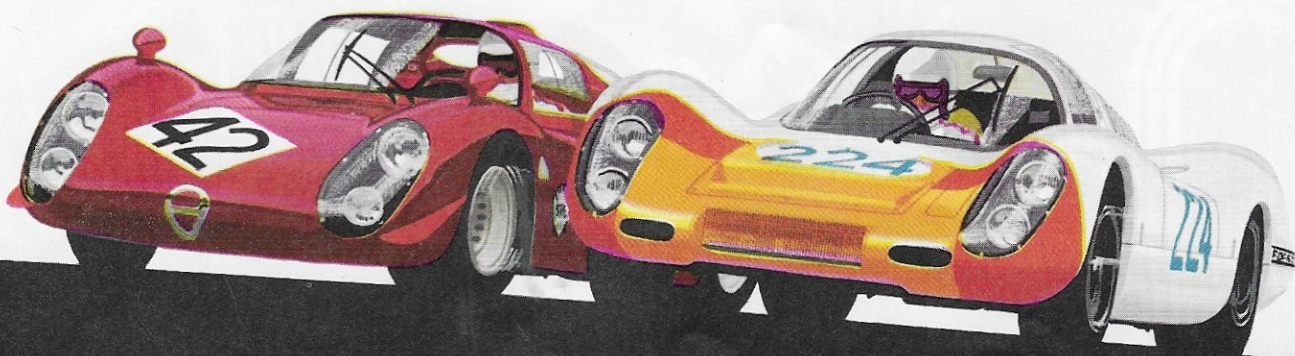

**GT
CHAMPION-
SHIP
RACE
SET**

**CRISS CROSS
RACE
SET**

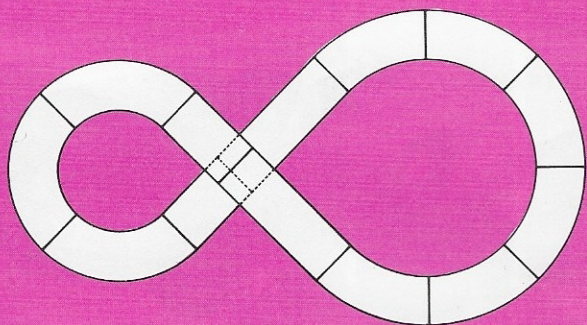

EUROPEAN SILVER EIGHT SET

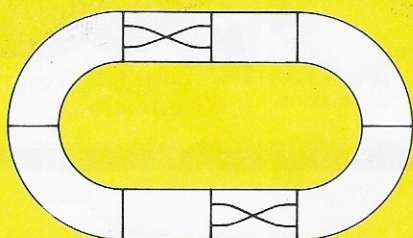

MINIC provides all the thrills of the Race Track on your Table Top with these three exciting sets containing models of the latest GT (Gran Turismo) Cars. See how your set layout can form the basis of one of the "Big Name" Circuits shown below. A Power Unit having an output of 12 Volts D.C. giving 1 to 2 amps. and protected by a suitable overload cut-out device will be required for your set.

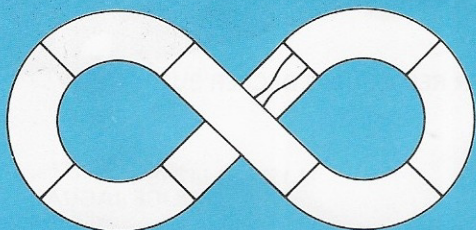

Illustrations of sets show full size cars.

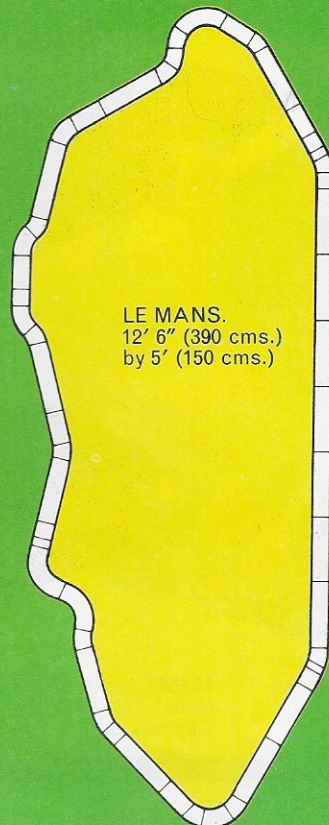

M.1506 GT CHAMPIONSHIP RACE SET. Contains Ford and Ferrari GT Cars, 2 Hand Controllers, 2 Track-Mates with 10 feet (305 cms.) of Track which makes up into an up-and-over figure of eight layout with a large fast loop and a tight bend to test out skilful drivers. Complete with Track Support Piers.

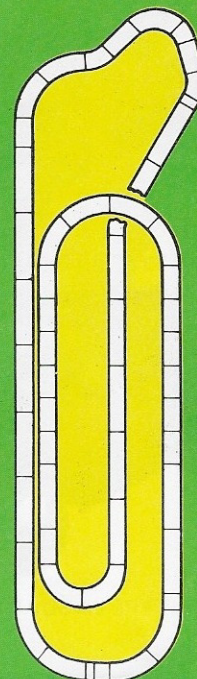

M.1507 CRISS CROSS RACE SET. Contains Ford and Ferrari GT Cars, 2 Hand Controllers, 2 Track-Mates with over 5 feet (150 cms.) of Track in the form of an oval. Two Crossover Tracks give this race game added excitement, the cautious driver will often be able to beat his opponent on the race track.

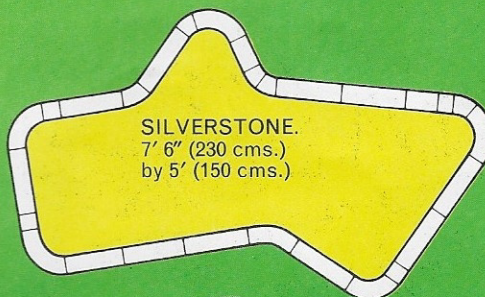

M.1514 EUROPEAN SILVER EIGHT SET. Contains New Alpha Romeo and Porsche Cars, 2 Hand Controllers and nearly 7 feet (210 cms.) of Track including Chicane to build an up-and-over figure of eight or "Grand Piano Circuit".
(Available later).

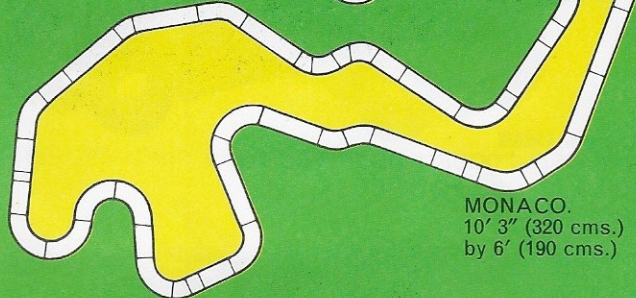

LE MANS.
12' 6" (390 cms.)
by 5' (150 cms.)

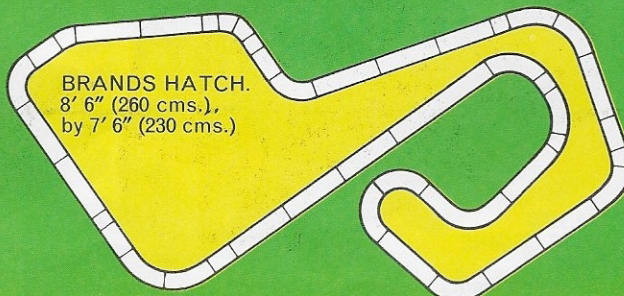

MONZA.
10' 3" (320 cms.)
by 3' (90 cms.)

SILVERSTONE.
7' 6" (230 cms.)
by 5' (150 cms.)

MONACO.
10' 3" (320 cms.)
by 6' (190 cms.)

BRANDS HATCH.
8' 6" (260 cms.),
by 7' 6" (230 cms.)

M.1559 E-TYPE JAGUAR.

M.1576 FERRARI 500 SUPERFAST.

M.1577 CHEVROLET CORVETTE STINGRAY

M.1582 E-TYPE JAGUAR 2+2.

M.1587 FORD GT MARK 2. 1966 Winner of Le Mans "24 Hours", Sebring "12 Hours" and Daytona "500".

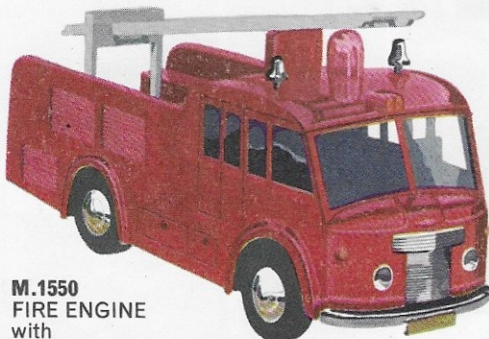

M.1588 FERRARI 330/P4. 1967 Worlds Sports Champions.

M.1545G GREEN DOUBLE DECKER BUS.

M.1545R RED DOUBLE DECKER BUS.

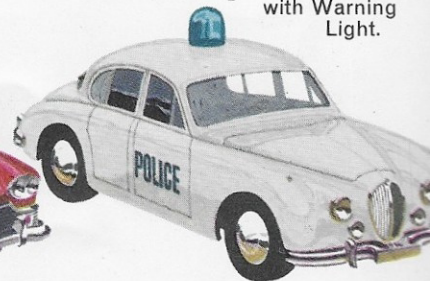

M.1550 FIRE ENGINE with Warning Light.

M.1543 HUMBER SUPER SNIPE.

M.1552 3.8 LITRE POLICE JAGUAR with Warning Light.

Buses

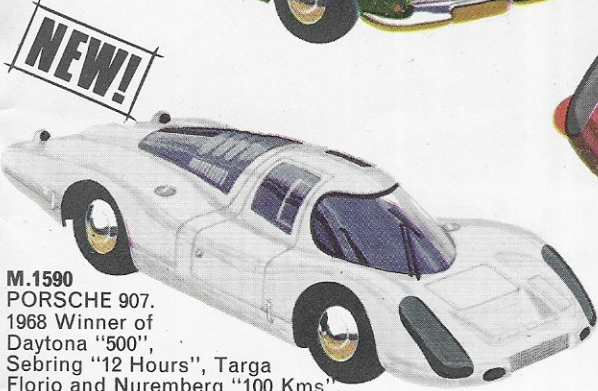

Choose additional Racing, Rally, Saloon or Commercial Vehicles to go on your own layout from the wide range presented by MINIC. Powered by the "Jet-Speed Six" 12 Volt D.C. Motor, power pick up is achieved through constant contact phosphor bronze collectors. Tri-ang Minic vehicles enjoy the same servicing facilities as Tri-ang Hornby locomotives, particulars of which are included with each car.

M.1581 ASTON MARTIN DB-6.

M.1589
ALFA
ROMEO T.33
1968 Winner of Mogello
"Endurance Race" and
2nd place Targa Florio.
(Available later).

M.1590
PORSCHE 907.
1968 Winner of
Daytona "500",
Sebring "12 Hours", Targa
Florio and Nuremberg "100 Kms".
(Available later).

M.1548 CAR TRANSPORTER.

M.1546 BEDFORD LORRY with Bale Load.

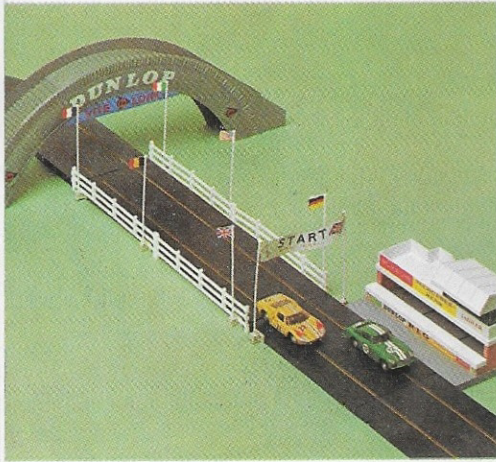

M.1553
CARAVAN TRAILER.

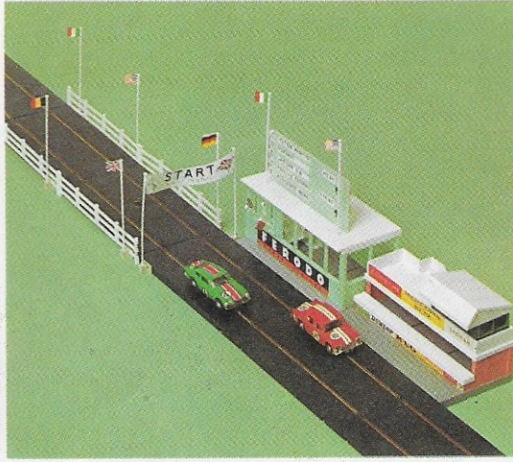

M.1554
FLAT
TRAILER.

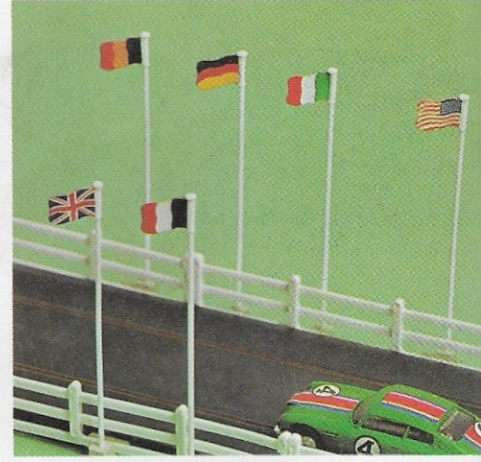

M.1565
BREAKDOWN
LORRY
with Warning
Light.

M.1530 TROPHY ACCESSORY SET contains Dunlop Footbridge, Pit Buildings, Flags, Fences and Start and Finish Banner. Track and cars not included.

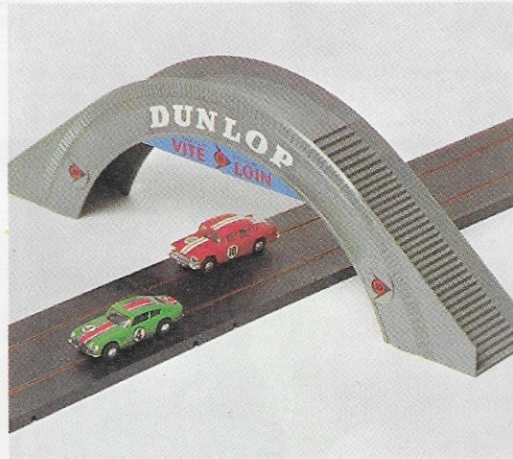

M.1531 INTERNATIONAL CIRCUIT EXTENSION SET contains Automatic Starting Gate, Pit Buildings, Flags, Fences and 2' (61 cms.) of track including Chicane.

M.1736 FLAGS AND FENCES with clip-on bases.

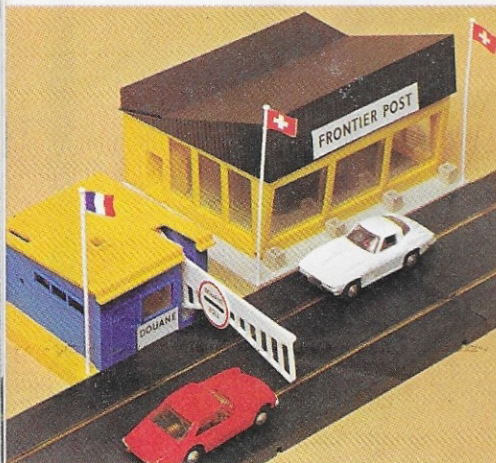

M.1757 SERVICE TOOL KIT contains tools and a comprehensive range of spare parts to keep your Rally, Racing and Motorway vehicles on the road ready to go.

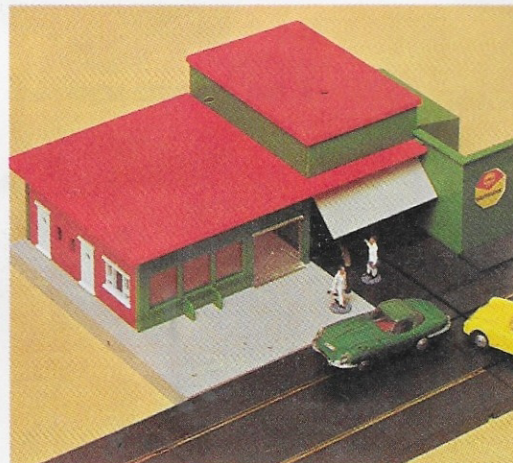

M.1810 DUNLOP FOOTBRIDGE.

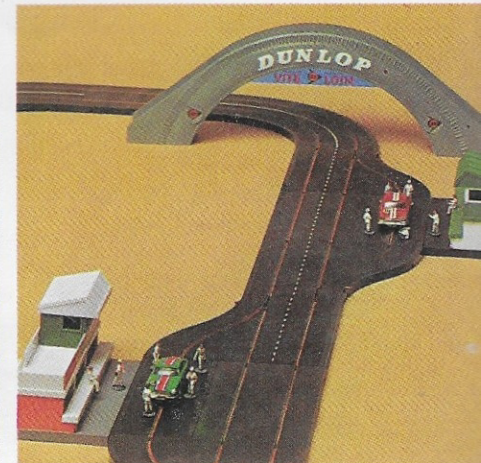

M.1812 AUTOMATIC STARTING GATE Operated by a third player who acts as a Traffic Marshall. A Union Jack signals the start of the race and cuts in the power for a clean getaway.

M.1817 FRONTIER POST SET. Clockwork motor raises and lowers barrier at variable pre-set intervals presenting a hazard to oncoming vehicles.

M.1818 MAD MOTORIST REVERSING HAZARD. The most hair-raising Rally Hazard from MINIC. A hidden clockwork motor operates the Porsche which backs out of a garage right across both tracks, and disappears back into the garage.

M.1819 PIT STOP SET. Contains Pit Building with six figures, left and right track junctions and a straight single track. Illustration shows two cars on a racing circuit.

Obtain more fun from your layout by adding Tri-ang Minic Automated and Trackside Accessories. Easy-to-assemble, clip together buildings for MINIC or Pushalong cars. MINIC track vehicles, fences and figures not supplied with buildings.

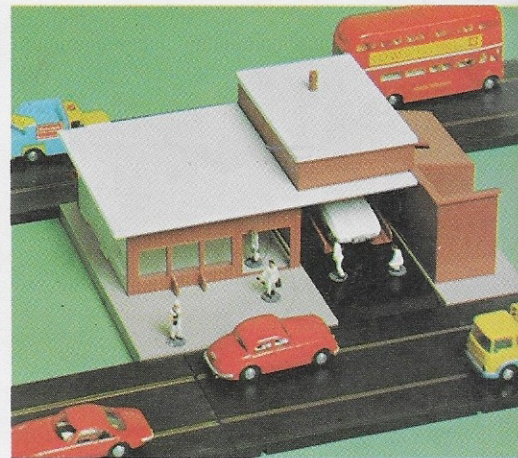

Car Play

M.1811 DRIVE-THROUGH BUILDING with operating Helicopter.

M.2001 FILLING STATION.

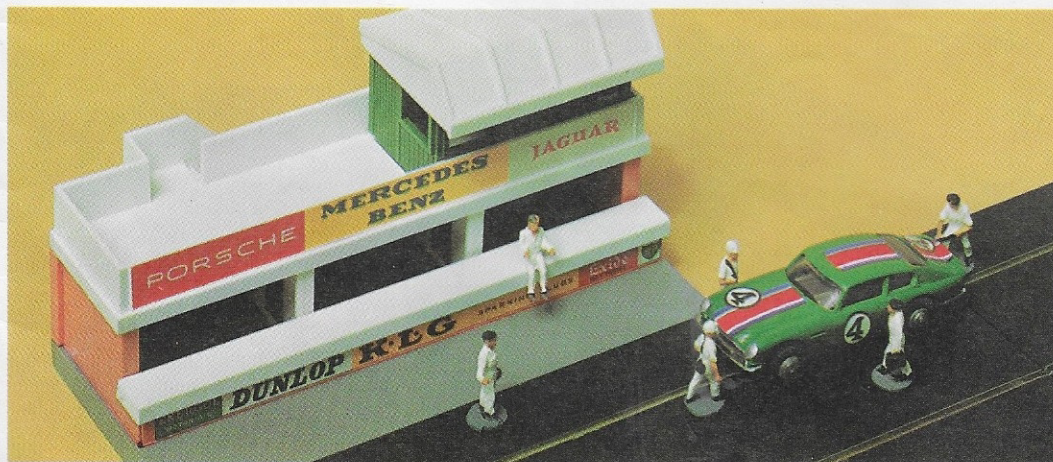

M.2002 SERVICE STATION.

M.2004 BUNGALOW WITH GARAGE. Door opens as car approaches garage.

M.2005 MOTEL CHALET AND GARAGES with operating doors.

M.2007 RACING PIT.

M.2008 FREIGHT DEPOT. Designed as an extendable unit, lengthways and sideways.

M.1674 GRADIENT SUPPORT SET. Support units fit under track sections to elevate roadway where required.

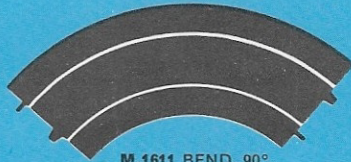

M.1601 STRAIGHT.
6" (15.2 cms.) long.

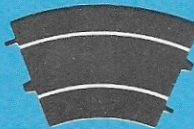

M.1602 HALF STRAIGHT.
3" (7.6 cms.) long.

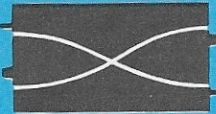

M.1610 CHICANE.
6" (15.2 cms.) long.

M.1611 BEND. 90°.
6" (15.2 cms.) radius.

M.1613 BEND. 45°.
6" (15.2 cms.) radius.

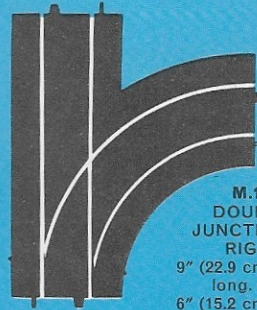

M.1625 CROSSOVER. 6" (15.2 cms.) long.
To avoid electrical complications, crossover sections should always be used in pairs.

M.1604 POWER PICKUP.
6" (15.2 cms.) long.

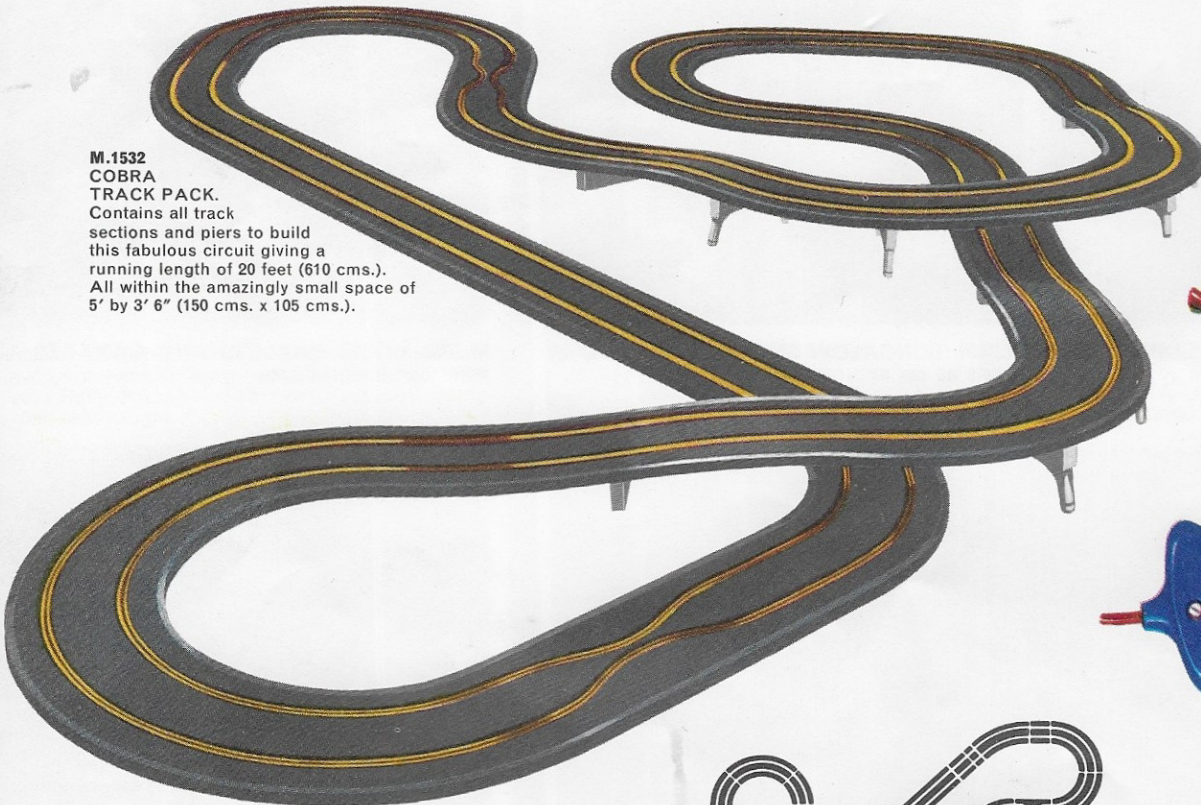

M.1606 STRAIGHT SINGLE.
6" (15.2 cms.) long.

M.1612 DOUBLE JUNCTION RIGHT.
9" (22.9 cms.) long, 90° radius.

THE COBRA

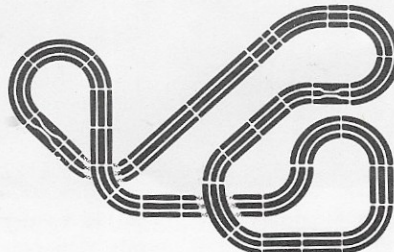

M.1532 COBRA TRACK PACK.
Contains all track sections and piers to build this fabulous circuit giving a running length of 20 feet (610 cms.). All within the amazingly small space of 5' by 3' 6" (150 cms. x 105 cms.).

M.1748 SPEED AND REVERSING HAND CONTROLLER.
Complete with cable to attach to M.1604 Track.

M.1742 NON REVERSING HAND CONTROLLER
complete with cable. (Available later).

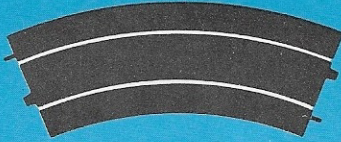

Your basic MINIC set layout can be expanded from the comprehensive selection of track elements to form either a model race track or a motorway system in miniature. On Page 33 details of world famous race

tracks made from MINIC track are shown and on Page 30 the integration of your road system with your train layout is demonstrated.

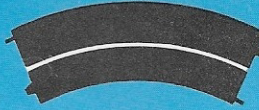

M.1615 BEND 30°.
6" (15.2 cms.) radius.

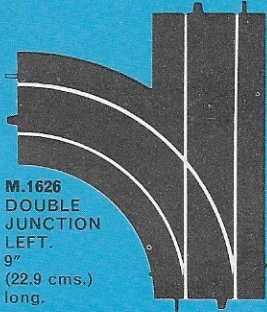

M.1616 BEND 45°.
12" (30.4 cms.) long.

M.1617 BEND SINGLE.
45° 9" (22.9 cms.) radius.

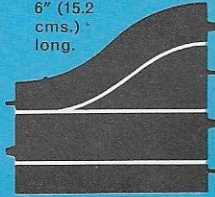

M.1609 DOUBLE STRAIGHT.
12" (30.4 cms.) long.

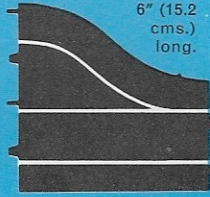

M.1626 DOUBLE JUNCTION LEFT.
9" (22.9 cms.) long.

M.1633 JUNCTION LEFT.
6" (15.2 cms.) long.

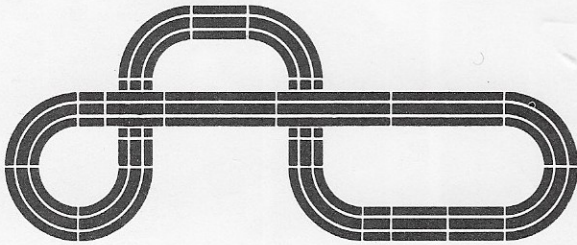

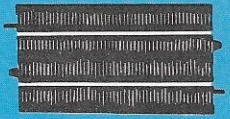

M.1632 JUNCTION RIGHT.
6" (15.2 cms.) long.

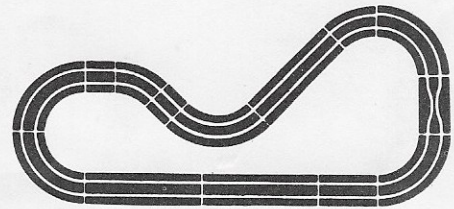

M.1638 QUARTER STRAIGHT.
1 1/2" (3.8 cms.) long.

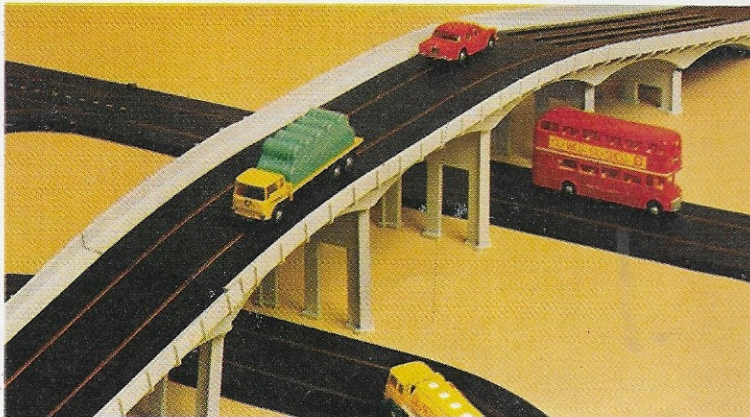

M.1608 HILL GRIP.
6" (15.2 cms.) long.

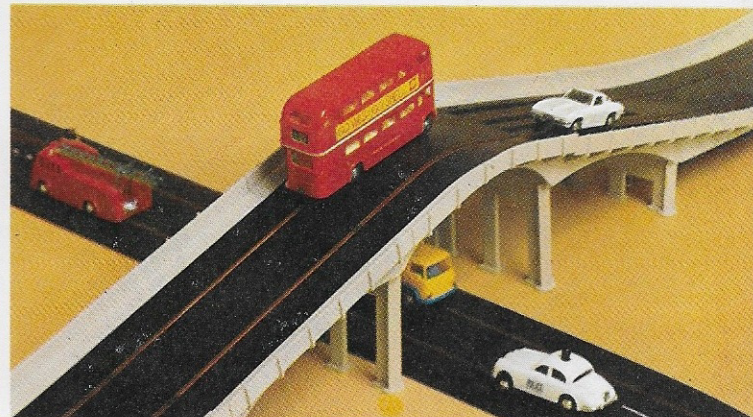

Suggested **FRONTIER POST CIRCUIT.**
60.5" (153.6 cms.)
by 24.5" (62.2 cms.)

Suggested **ROUGH RIDER CIRCUIT.**
45.5" (116 cms.)
by 21.5" (55 cms.)

M.1668 FLYOVER SET. Contains all components to build flyover 4' 6" (135 cms.) long. Vehicles and Underpass Roadways not included.

M.1669 HUMP BACK BRIDGE SET. Contains all components to make bridge 2' 6" (75 cms.) long. Vehicles and Underpass Roadway not included.

FROG[®]

Aircraft Kits

Here are some of the true to life scale plastic model aircraft kits engineered and manufactured in the TRI-ANG HORNBY factory. The 'range' includes both contemporary

and historical, civil and military machines which are illustrated in the separate FROG catalogue available from your local Toy or Model shop.

Made in Great Britain
by ROVEX INDUSTRIES LIMITED,
WESTWOOD, MARGATE, KENT.

Rovex Industries Ltd. reserve the right to alter designs, specifications and prices without notice. This catalogue supersedes all previous editions.
